Canada

The Honourable Patty Hajdu, Minister of Indigenous Services and Minister responsible for FedNor

On behalf of the Government of Canada and the team from the Federal Economic Development Agency for Northern Ontario, I am pleased to extend a warm welcome to everyone attending the Prospectors and Developers Association of Canada (PDAC) 2024 convention, and particularly, the Northern Ontario Mining Showcase (NOMS).

Proudly standing as the largest pavilion at the convention, NOMS will once again shine the global spotlight on the unique products, services and investment opportunities our region has to offer. This year we're hosting over 110 exhibitors and are looking forward to more activity and opportunities for Northern Ontario's mining supply and service sector.

Since its inception in 2015, the government-supported pavilion has nearly tripled in size and helped participants create over 900 jobs and generate more than \$100 million in increased sales. It is making a huge difference in the lives of thousands of middle-class families across the region.

Northern Ontario's businesses are innovative and know how to use clean technologies to maximize opportunities. By doing so, they lead the way in protecting the environment while creating good-paying jobs for decades to come in communities across the region.

Please join me in extending a special congratulations to the City of Temiskaming Shores for its hard work and leadership on this important initiative.

Best wishes to all participants for a productive and enjoyable convention.

Sincerely,
The Honourable Patty Hajdu,
Minister of Indigenous Services and
Minister responsible for FedNor

For more information about FedNor or its programs and services, please scan here:

MESSAGE FROM YOUR HOST

To all companies, business owners, executives, dignitaries, and other special guests from around the world, we welcome you to the 2024

Northern Ontario Mining Showcase!

This event is led by the City of Temiskaming Shores and generously supported by FedNor to recognize the unique potential that PDAC affords for the promotion of Northern Ontario and its businesses to the world.

The Northern Ontario Mining Showcase provides a unique opportunity to showcase the knowledge, capacity, and innovative approaches that mining supply and service companies from our region can offer.

Be sure to take the opportunity to chat, cultivate relationships, and generate business opportunities and leads with the 112 participating exhibitors. We also encourage you to learn more about our region and how its central location provides access to mining supply and service companies, directly supporting mines across Northeastern Ontario and Northwestern Quebec.

Join us and learn first-hand why Northern Ontario is deemed to be a centre of mining excellence!

The 2024 Northern Ontario Mining Showcase

Mayor Jeff Laferriere
City of Temiskaming Shores

A10 FABRICATION

05

www.a10fabrication.com

With over 10 years in business, A10 Fabrication offers high-quality custom manufacturing and fabrication services and products of small machined parts up to large projects such as bridge fabrication, bucket fabrication, and everything in between. Our custom solutions meet the needs of mining, industrial, commercial, and residential projects. All work produced by A10 Fabrication goes through a quality assurance program, thus reflecting our honest, transparent, and dedicated approach to our custom, outstanding final products.

ACCESS MINING SERVICES

48

www.access-s.ca

Active in the mining industry since 2002, Access Mining Services offers rentals & sales service of mining utility vehicles as well as fleet management programs of transportation vehicles which can also include maintenance. Access Mining Services is also a supplier of highly qualified personnel for the mining operations.

ACCUTRON INSTRUMENTS INC

29

www.accutroninstruments.com

Accutron Instruments is the global choice for mine ventilation monitoring equipment. Our one-of-a-kind advanced monitoring technology gives real-time information to mine enabling them to take corrective action to remove contaminants thus keeping workers safe and progressing their operations safely and within regulations.

AKI-EH DIBINWEWZIWIN "ADLP"

101

www.adlp.ca

An Indigenous Mining contractor, we specialize in underground construction services, providing world-class mine contracting services for our partners while meaningfully participating in the economic benefits of our territorial lands within the Robinson Huron Treaty Territory.

BAYSIDE GEOSCIENCE

41

www.baysidegeoscience.com

Bayside is a geological consulting firm that works with companies in the mining and mineral exploration sectors in a number of capacities. We provide contract personnel including geologists and geological technicians to supplement a company's workforce in times where extra labour is required. Bayside also provides full exploration project management including program design, planning, budgeting and execution. We are renowned for our field work which takes us across Canada in search of minerals of interest.

BBE GROUP CANADA

111

www.bbegroup.ca

BBE is recognized worldwide for its expertise in mine ventilation and air conditioning. We provide independent specialist and engineering services ranging from conceptual designs and modeling through to detailed engineering, project execution, and turnkey solutions throughout the Americas. BBE's engineering complements include mechanical, mining, chemical (process), electrical/instrumentation, and civil/structural. We are leaders in predicting underground heat loads and their management with surface and/or underground refrigeration plants. Our expertise also covers all aspects of primary and secondary ventilation systems and fan engineering. Throughout, our solutions incorporate all associated occupational health and safety concerns.

BLUE HERON ENVIRONMENTAL

12

www.blueheronenv.com

Blue Heron was established in 2004 with the interest of providing practical assistance to resource-based companies. Through experience gained from extensive work in the environmental field, Blue Heron staff are equipped to assist with all aspects of environmental management for your facility. From grassroots site risk assessments to full development and implementation of certifiable integrated Environmental, Health, and Safety Management Systems, Blue Heron can provide the level of service your organization requires.

MATERIALS JOINING INNOVATION CENTRE

69

www.Majic-ca.org

The Materials Joining Innovation Centre (MajIC) is a not-for-profit organization with the mandate of improving the welding industry in Canada. MajIC offers many specialized services and testing capabilities that are not otherwise available to small/medium companies. We have a highly capable staff of Engineers and Technologists with expertise in various fields including welding, materials science, metallurgy, and manufacturing. MajIC maintains a well-equipped, state-of-the-art ISO9001-certified materials testing laboratory with extensive capabilities for standard and custom testing. With this expertise, we can fully support the growth plans of companies by executing R&D projects, or by simply providing independent validation of development work conducted internally.

METEX MANUFACTURING

63

www.metexmfg.com

Metex is located in the middle of one of the world's great mining areas, and near more than 20 mines, refineries, and smelters. Because of this, we have extensive experience in designing, building, and repairing heavy-duty steel structures such as chutes, ore passes, and slag pots for the mining industry. We also have experience with a diverse range of other products, such as e-house structures, access platforms and ladders, vehicle chassis, pulp dryers, bridges, and process equipment.

MILLER TECHNOLOGY

71

www.millertechnology.com

Miller Technology is a leading equipment manufacturer for the mining industry. Miller Technology strives to supply leading-edge solutions for customers to improve productivity, while maintaining the highest safety standards. All products are designed and manufactured from our head office in North Bay, Ontario.

TOPVU

28

www.topvu.ca

TopVu designs Tracking Systems (ORE, Personnel, LHDs) for mines. TopVu's OreTracking is an enterprise solution for mineral reconciliation and ore flow analytics. Live or Historic records can be used for grade control, process control, retention time, blending, or waste dilution detection. The core of TopVu's Personnel Tracking is Gen.2 software; a web-based REST API software platform integrating multiple devices to enhance H&S procedures and speed up mine rescue activities. When the digital eTagBoard is combined with TopVu's checkpoint tracking (RFID or BLE), we can deliver unprecedented safety benefits by eliminating tagboard incidents. Gen.2 also integrates RFID turnstiles to manage and document the workforce on your property, and Muster Tap Stations at assembly points and refuge stations.

TPS GROUP OF COMPANIES / NATT SAFETY SERVICES

53

www.tpsgroup.ca

TPS Group of Companies is the Primary Source for all your Staffing, Training, and Safety needs! We have over 30 years of combined experience in servicing all sectors and offer safety training including our popular CPO-Approved Working at Heights training to Confined Space, Mobile Elevated Work Platform, Rigging, Overhead Crane, Class 7 Forklift, Mobile Elevated Work Platform and more. We also offer Industrial Services such as Shutdown staff, Safety Consulting, and Safety plans.

Toronto is the mining finance capital of the world: the Toronto Stock Exchange (TSX) and Toronto Venture Exchange (TSX-V) list more mining companies than any other exchange with over 1,150 listed in 2022. The TSX and TSX-V are first among exchanges worldwide in equity capital raised and are home to about 40% of the public mining companies in the world.
