Federal Economic Development
Agency for Northern Ontario

Agence fédérale de développement
économique pour le Nord de l'Ontario

Canada

The Honourable Patty Hajdu, Minister of Indigenous Services and Minister responsible for FedNor

On behalf of the Government of Canada and the team from the Federal Economic Development Agency for Northern Ontario, I am pleased to extend a warm welcome to everyone attending the CIM Connect 2024 convention, and particularly, the Northern Ontario Mining Showcase (NOMS).

Proudly standing as the largest pavilion at the convention, NOMS will once again shine the global spotlight on the unique products, services and investment opportunities our region has to offer. This year we're hosting over 25 exhibitors and are looking forward to more activity and opportunities for Northern Ontario's mining supply and service sector.

Since its inception in 2015, the government-supported pavilion has nearly tripled in size and helped participants create over 900 jobs and generate more than \$100 million in increased sales. It is making a huge difference in the lives of thousands of middle-class families across the region.

Northern Ontario's businesses are innovative and know how to use clean technologies to maximize opportunities. By doing so, they lead the way in protecting the environment while creating good-paying jobs for decades to come in communities across the region.

Please join me in extending a special congratulations to the City of Temiskaming Shores for its hard work and leadership on this important initiative.

Best wishes to all participants for a productive and enjoyable convention.

Sincerely,
The Honourable Patty Hajdu,
Minister of Indigenous Services and
Minister responsible for FedNor

For more information about FedNor or its programs and services, please scan here:

MESSAGE FROM YOUR HOST

To all companies, business owners, executives, dignitaries, and other special guests from around the world, we welcome you to the 2024

Northern Ontario Mining Showcase!

This event is led by the City of Temiskaming Shores and generously supported by FedNor to recognize the unique potential that CIM affords for the promotion of Northern Ontario and its businesses to the world.

The Northern Ontario Mining Showcase provides a unique opportunity to showcase the knowledge, capacity, and innovative approaches that mining supply and service companies from our region can offer.

Be sure to take the opportunity to chat, cultivate relationships, and generate business opportunities and leads with the 25 participating exhibitors. We also encourage you to learn more about our region and how its central location provides access to mining supply and service companies, directly supporting mines across Northeastern Ontario and Northwestern Quebec.

Join us and learn first-hand why Northern Ontario is deemed to be a centre of mining excellence!

The 2024 Northern Ontario Mining Showcase

Mayor Jeff Laferriere
City of Temiskaming Shores

360 SERVICES INC.

www.360servicesinc.com

360 Services Inc. began operations in 2013 and is a locally owned and operated welding and fabrication business based in Timmins, ON. We are very proud to be serving Northern Ontario and surrounding areas; we are looking forward at exporting. As a service-oriented company, we work with every type of client, from small local businesses to some of the largest mining corporations in the area providing bucket fabrication and rebuilds, heavy equipment repair, align-boring and custom fabrication.

12

ANDEAN DRILLING SERVICES

www.andeandrilling.com

Andean Drilling Services is an independent underground mining contracting company who specializes in long hole drilling and blasting and the installation of deep ground support throughout Canada, Latin America and Africa. Our objective is to offer our clients the absolute best service possible which includes an impeccable safety program, the most advanced underground mining methods and an economic value that our clients will be pleased with.

11

BLACK DIAMOND DRILLING TOOLS CANADA

www.bddrill.ca

World-class drilling tools and equipment Black Diamond Drilling Tools Canada Inc known as "BDDRILL" is a privately owned Canadian Company which services the Mineral Exploration, Mining, Water well and Geo-technical sectors of the Drilling Industry. Black Diamond's vision is to help our customers create value using world class drilling equipment and tools. BDDrill's rock drilling and pneumatic tools are driven by innovation and the latest technology. BDDrill can Supply a complete range of Mining Equipment including DTH Down the Hole Hammers and Bits, Reverse Circulation Hammers and Bits, Rotary Drilling Tools, Exploration Diamond Drilling Tools, Top Hammer Drilling Tools and Casing Systems

CAMBRIAN COLLEGE

16www.cambriancollege.ca

Cambrian College's nationally accredited mining programs provide students with the skills and hands-on experience required to become part of underground or open pit mine teams throughout the globe. Cambrian R&D creates an environment of partnership, development, and learning that benefits everyone. The industry is connected with bright upcoming workers to solve problems with fewer wasted resources. We develop and offer programs to meet industry training needs while delivering courses ranging from battery electric vehicle maintenance, rigging, mine hoist, ozone depletion, and more. Each program is delivered in specialized labs, mobile spaces, and classrooms designed for face-to-face, virtual, and blended delivery.

CORELIFT INC

09www.corelift.ca

CoreLift™ is a novel Canadian equipment provider based in Sudbury, Ontario. Our goal is to promote physical diversity, improve geoscience productivity, and continue to innovate with products that dramatically remove risks of repetitive strain injuries and improve workflow for core logging personnel. We provide consulting expertise as well as robust, innovative equipment to go from core shack to modernized core processing facilities.

CREIGHTON ROCK DRILL LTD

03www.crdcreighton.com

CRD is a privately owned company distributing high-quality leading-edge products to engage the extreme demands of the aggregate, attachments, construction, drilling solutions, mining, hardware, fluids, road maintenance, and ground-engaging markets. We have 6 locations throughout Ontario, 3 branches in Quebec, and 1 branch in Nova Scotia. Throughout our branches, we stock inventory to help service the specific markets that we're located in. Those products include; GET, hydraulic attachments, wear solutions, drilling solutions, and mining equipment and parts.

EQUIPMENT NORTH

06

www.equipmentnorth.com

Equipment North has been a family-owned, Canadian business since 1989, with branches in Sudbury and Timmins. We pride ourselves on providing the mining and construction sectors with conventional and unique equipment and services. Equipment North will find a solution for you, our unique equipment and service keeps our customers coming back.

FULLER INDUSTRIAL CORPORATION

02

www.fullerindustrial.com

Fuller Industrial has the most advanced Pipe Spool Fabrication and Premier Rubber Lining / Ceramic Lining Plant in North America. We are ISO 9001:2000 Approved and ASME B31.1, B31.3, and B51 Certified Weld Shop. We provide barcoding and unique serial numbers for every part ensuring that each one can be traced and reproduced to the exact original specification. We work very closely with consulting engineers for new projects. We are currently supplying products in 10 – 12 countries and have a reputation for "On Spec / On Time".

KEEPERS OF THE CIRCLE

14

www.keepersofthecircle.com

Keepers of the Circle Employment Training programs and economic opportunities are designed to provide Indigenous Peoples with the information, skills, and support they need to achieve economic stability and career advancement. We offer gender-specific programming for Indigenous women such as the Aboriginal Women in Mining (AWIM) program which was created for Indigenous women to secure employment in mining and other non-traditional jobs.

Approximately 77% of Ontario's mining company
GDP contributions stay inside Ontario.

KRUCKER HARDFACING

19

www.kruckerhardfacing.com

We specialize in the highest quality hardfacing materials and techniques to ensure our clients get the best results. Our experts provide a variety of services including Chromium Carbide Overlay lined pipe; including laterals, tees, straights, long radius elbows, and elbows. Our hardfacing services can extend the life of components, increase wear resistance and reduce downtime whether it's in the mines, concrete plants, paste fill systems, mills, smelters, or any other industry with high wear areas. We are dedicated to helping our clients get the best performance out of their products.

NC INDUSTRIAL

18

www.ncindustrial.ca

NCIndustrial thrives in several specialty niche markets through a diversified product and service offering that includes but is not limited to crusher parts and service, Babbitt bearing supply and service, heat exchanger cleaning and servicing, fluid sealing, and high-temperature products, and industrial MRO distributed products. We are a one-stop heavy industrial shop with the ability to service the needs of most departments of a mine site and surface plants. Our skilled representatives can assist you in sourcing just about any product that a mine would require.

NORTH BAY MACHINING CENTRE

10

www.nbmc.ca

Operating as a full-service machine shop, we source material with your specs, and provide designed machining solutions as well as any finishing your parts may require. Our capabilities encompass the design and manufacture of small to large pieces, small batch to high volume, and simple to complex components. North Bay Machining Centre is ISO9001-2015 certified, Controlled Goods certified, and now Cyber Secure 2021.

PCL CONSTRUCTORS NORTHERN ONTARIO INC.

22

www.pcl.com/ca/en/who-we-are/our-offices/pcl-constructors-northern-ontario-inc

PCL provides comprehensive construction services for mining, industrial, and commercial projects, including civil, foundations, buildings, interior renovations, process buildings and process equipment, mine infrastructure, below-collar construction, support, and administrative buildings. We can undertake projects ranging from \$25k to \$1B with experience and staffing to support a wide variety of contract delivery methods. With over 115 years of experience and over \$9B per year in projects, as employee-owners, PCLers commit to each project's success and lasting client relationships. Our global experience is leveraged by our local offices.

PROSPEC STEEL FABRICATION LIMITED AND PROSPEC ENGINEERING LTD

01

www.prospecfab.com

Prospec Steel Fabrication Limited has a vast network and fabrication capabilities including custom plate work, structural steel, steel fabrication, and miscellaneous fabrication services. We have the experience and skills necessary to support cradle-to-grave projects including detailing and on-site erection services. Our team can meet your needs both from our office and in the field. Trained personnel are available to oversee projects remotely or on-site and perform inspections and commissioning at customer request.

As producers of minerals and metals that are key components in the clean energy transition, mining companies across the province also adhere to the highest environmental standards in energy conservation, carbon emission reduction, and adoption of clean technologies.

SAFEBOX BY IONIC

www.safeboxsystems.com

05

Safebox is part of The Ionic Technology Group, which has been a pioneering force in engineering and manufacturing for over 24 years. Our automation systems have been deployed on every continent. Ionic's divisions specialize in Industrial Automation, Systems Integration, Manufacturing, Consulting Engineering, and in-house design and production of micro-electronics. The SafeBox is a remote energy isolation system that reduces lockout times to seconds. It removes the labour portion of going to every isolation point, mechanically isolating the energy from the device, and monitoring for any potential or energy in the system. Our system will increase workplace safety during maintenance activities while providing additional operational benefits.

SAFESIGHT EXPLORATION INC.

www.safesightxp.com

26

SafeSight is an innovative digital smart mining company that develops, manufactures and markets LiDAR-based devices and software for rapid underground advanced data collection and safety systems. Validated by industry-leading producers, SafeSight systems instantly improve operational efficiency and safety by creating actionable, advanced data insights in minutes while eliminating the need to send people into high-risk situations to collect the data.

SOFVIE

www.sofvie.com

24

Sofvie is a comprehensive Health and Safety Software platform that allows your entire workforce to be fully engaged in working safely. Our core belief is that everyone deserves to go home safely from their work shift and central to that belief is that Sofvie gives you the ability to proactively get ahead of hazards and potential risks by transforming safety data into knowledge and wisdom.

www.symboticware.com

Symboticware is a leader in data collection and AI, enabling fleet operators to capture data, track assets, and analyze their performance to avoid unscheduled downtime, minimize fuel consumption, enhance safety, and reduce carbon footprint. Our proprietary technology is built on cutting-edge telematics, communications, and Predictive AI. We are a technology partner to some of the largest mining companies in the world, offering end-to-end infrastructure featuring hardware, connectivity, and AI.

TBT ENGINEERING LIMITED

15

www.tbte.ca

TBT Engineering is a full-service multi-disciplinary consulting group providing professional and technical services throughout Northern Ontario with a focus in Engineering, Environmental, Geomatics, Geological, and Technical Services. Our team of experts can handle every project stage, from conception through to completion, and is fully committed to completing your project on time and within budget.

TIME LIMITED

23

www.timeltd.ca

For over 50 years, TIME (Temiskaming Industrial Mining Equipment) has provided mining, exploration, and other heavy industries with a single-source solution. We are known for manufacturing quality products, our efficient supply network, and having experienced, knowledgeable staff that provides exceptional customer care. Though our multi-faceted operation is diverse in nature, it is our ability to build lasting relationships with our customers and suppliers that is unique and memorable and proves we will always make TIME for them.

In 2022, \$989 million was invested in mineral exploration in Ontario.

TOPSTEEL/TOPROPS

02

www.topsteel.ca

TopSteel/TopRops is a steel and aluminum fabrication facility specializing in ROPS/FOPS safety systems. We can rebuild and recertify any make or model of canopy and cabs. We also have a full line of safety equipment which includes, wheel chocks, jack stands, dump bins, steps, and staircases. TopSteel/TopRops manufactures OEM personal carriers, flat decks, crane trucks, mechanic trucks, and fuel lube trucks for all trucks and chassis' that a commonly used in the mining that are ROPS/FOPS certified.

WABI IRON & STEEL CORP

24

www.wabicorp.com

We provide integrated manufacturing including fabrication, machining, engineering, and a foundry producing iron & and steel castings. We specialize in custom design and manufacture of a wide range of mine skips, cages, loading stations, chutes, mine cars, and sheaves. We offer quality castings in over 100 different alloys which include Ni-hard, chrome iron, gray/ductile iron, steel, alloy steel, and stainless steel. We provide wear-resistant and impact-resistant parts and components for smelters, mills, steel plants, chutes, pumps, crushers, and the forestry industry. Our APEO-certified Engineering Department is capable of designing all types of cast and fabricated products. A proud century of engineering innovation.

Ontario's leading-edge mine supply and service sector employs more than 40,000 people and Ontario produces more than \$10 billion worth of mining supplies and services every year.
