Agence fédérale de développement
économique pour le Nord de l'Ontario

Canada

The Honourable Patty Hajdu, Minister of Indigenous Services and Minister responsible for FedNor

On behalf of the Government of Canada and the team from the Federal Economic Development Agency for Northern Ontario, I am pleased to extend a warm welcome to everyone attending the MINExpo International Convention 2024, and especially, the Northern Ontario Mining Showcase (NOMS).

NOMS will once again shine the global spotlight on the unique products, services and investment opportunities our region has to offer. This year, we're hosting over 30 exhibitors and are looking forward to more activity and opportunities for Northern Ontario's mining supply and service sector.

Since its inception in 2015, the federal government-supported pavilion has created over 900 jobs, nearly tripling in size – helping participants generate more than \$100 million in increased sales. It's making a big difference in the lives of thousands of families across our region.

Businesses in Northern Ontario are innovative, resourceful, and focused on sustainability – that's why so many are using advanced, clean technologies in order to maximize opportunities. Our region is leading the way in protecting the environment while creating good-paying jobs for decades to come in communities across the region.

Please join me in extending a special congratulations to the City of Temiskaming Shores for its hard work and leadership on this important initiative.

Best wishes to all participants for a productive and enjoyable convention.

Sincerely,

The Honourable Patty Hajdu,
Minister of Indigenous Services and
Minister responsible for FedNor

For more information about FedNor or its programs and services, please scan here:

MESSAGE FROM YOUR HOST

To all companies, business owners, executives, dignitaries, and other special guests from around the world, we welcome you to the MINExpo International 2024

Northern Ontario Mining Showcase!

This event is led by the City of Temiskaming Shores and generously supported by FedNor to recognize the unique potential that PDAC affords for the promotion of Northern Ontario and its businesses to the world.

The Northern Ontario Mining Showcase provides a unique opportunity to showcase the knowledge, capacity, and innovative approaches that mining supply and service companies from our region can offer.

Be sure to take the opportunity to chat, cultivate relationships, and generate business opportunities and leads with the 30 participating exhibitors. We also encourage you to learn more about our region and how its central location provides access to mining supply and service companies, directly supporting mines across Northeastern Ontario and Northwestern Quebec.

Join us and learn first-hand why Northern Ontario is deemed to be a centre of mining excellence!

The 2024 Northern Ontario Mining Showcase

Mayor Jeff Laferriere
City of Temiskaming Shores

ANDEAN DRILLING SERVICES

06

www.andeandrilling.ca

Andean Drilling Services is an independent underground mining contracting company who specializes in long hole drilling and blasting and the installation of deep ground support throughout Canada, Latin America and Africa. Our objective is to offer our clients the absolute best service possible which includes an impeccable safety program, the most advanced underground mining methods and an economic value that our clients will be pleased with.

B&D MANUFACTURING

03

www.bdmfg.com

Founded in 1980, B&D designs, manufactures and distributes innovative products and technologies to increase production and improve safety for industries globally. Our product line includes the globally recognized Portable Line Boring Machines, support equipment for large haul trucks and heavy shovels at surface operations, as well as heavy equipment operating in underground mines. In addition to our OEM product line, we support a variety of clients with custom design, fabrication and manufacturing, on-site repair and rebuild services.

CORELIFT INC

14

www.corelift.ca

CoreLift™ is a novel Canadian equipment provider based in Sudbury, Ontario. Our goal is to promote physical diversity, improve geoscience productivity, and continue to innovate with products that dramatically remove risks of repetitive strain injuries and improve workflow for core logging personnel. We provide consulting expertise as well as robust, innovative equipment to go from core shack to modernized core processing facilities.

There are currently 16 significant critical mineral projects in Ontario.

CREIGHTON ROCK DRILL LTD

08

www.crdcreighton.com

CRD is a privately owned company distributing high-quality leading-edge products to engage the extreme demands of the aggregate, attachments, construction, drilling solutions, mining, hardware, fluids, road maintenance, and ground-engaging markets. We have 6 locations throughout Ontario, 3 branches in Quebec, and 1 branch in Nova Scotia. Throughout our branches, we stock inventory to help service the specific markets that we're located in. Those products include; GET, hydraulic attachments, wear solutions, drilling solutions, and mining equipment and parts.

CSL ENVIRONMENTAL & GEOTECHNICAL LTD.

25

www.cslltd.ca

CSL is an independent owned and operated engineering firm in Northern Ontario. We pride our selves in being able to find creative solutions tailored to the north for our clients. We have developed a substantial mining team focused on developing and advancing projects.

FULLER INDUSTRIAL CORPORATION

18

www.fullerindustrial.com

Fuller Industrial has the most advanced Pipe Spool Fabrication and Premier Rubber Lining / Ceramic Lining Plant in North America. We are ISO 9001:2000 Approved and ASME B31.1, B31.3, and B51 Certified Weld Shop. We provide barcoding and unique serial numbers for every part ensuring that each one can be traced and reproduced to the exact original specification. We work very closely with Consulting Engineers for New Projects. We are currently supplying products in 10 – 12 countries and have a reputation for “On Spec / On Time”.

KRUCKER HARDFACING

21

www.kruckerhardfacing.com

We specialize in the highest quality hardfacing materials and techniques to ensure our clients get the best results. Our experts provide a variety of services including Chromium Carbide Overlay lined pipe; including laterals, tees, straights, long radius elbows, and elbows. Our hardfacing services can extend the life of components, increase wear resistance and reduce downtime whether it's in the mines, concrete plants, paste fill systems, mills, smelters, or any other industry with high wear areas. We are dedicated to helping our clients get the best performance out of their products.

LOPES LIMITED

02

www.lopes.ca

Founded in 1976, Lopes Limited is an industrial contractor and custom fabricator offering turn-key services in all things industrial, including supply and installation of plate-work, structural steel, piping systems, mechanical and dust collection systems, electrical contracting, and scaffolding. Our mission is to deliver excellence to clients with quality workmanship and strong project management. We owe our success and reputation to our attitude of being an early adopter of technology and innovation. Today, Lopes is a leading company in its sector. We remain a family business true to our original values of integrity.

Approximately 77% of Ontario's mining company
GDP contributions stay inside Ontario.

SAFEBOX BY IONIC

29

www.safeboxsystems.com

Safebox is part of The Ionic Technology Group, which has been a pioneering force in engineering and manufacturing for over 24 years. Our automation systems have been deployed on every continent. Ionic's divisions specialize in Industrial Automation, Systems Integration, Manufacturing, Consulting Engineering, and in-house design and production of micro-electronics. The SafeBox is a remote energy isolation system that reduces lockout times to seconds. It removes the labour portion of going to every isolation point, mechanically isolating the energy from the device, and monitoring for any potential or energy in the system. Our system will increase workplace safety during maintenance activities while providing additional operational benefits.

STG MINING SUPPLIES LTD.

17

www.stgmining.com

STG Mining is a global supplies company that specializes in equipment and consumables that assist with all phases of mineral processing and analysis in a laboratory setting. Specialized Equipment ranging from Crushers, Pulverizers, and Splitters in Sample Prep to the Furnaces required in Fire Assay to the Analytical equipment used in precious metals determinations, STG Mining offers a wide range of equipment options. Consumable items such as Certified Reference Material, Crucibles and Cupels as well as many other related products including general lab consumables, and safety products found in a mining lab are available through our network of offices and warehouses.

STORY ENVIRONMENTAL INC.

26

www.storyenvironmental.com

Story Environmental is a full-service engineering and environmental consulting firm located in northeastern Ontario. With over 26 years of experience, we have built a reputation for innovation, integrity, and reliability. We take pride and are dedicated to developing cost-effective solutions that meet client needs.

STRIDE SYSTEMS

19

www.stride-systems.com

Stride Systems helps its clients manage processes and data more effectively and efficiently. Our company offers a unique blend of IT expertise and industry-specific knowledge to clients in (and around) the mining industry. We are experts in data process analysis and database design, as well as software design and application development. Our Mine Monitor product focuses on the areas of Timekeeping, Scheduling, Production Tracking, and KPI management and visualization. We have the knowledge and experience that it takes to interpret the data management requirements of your business both today and in the future.

SUPERIOR STRATEGIES INC / WARRIOR SUPPLIES

11

www.superior-strategies.ca

Warrior Supplies is a 100% Indigenous-owned Safety Supply brand originating in Ontario, Canada. The Warrior brand is committed to product value through price, quality, and service for our clients. We hope that through our Warrior line of products, we will encourage those who wear or use our product to demonstrate the courage and skill that each possesses. We are committed to positive change, for not only Indigenous People but all of those who have been marginalized. Through our actions, and our values, we have demonstrated courage, and we desire to ignite the Warrior Spirit in all of our customers.

SYMBOTICWARE INCORPORATED

07

www.symboticware.com

Symboticware is a leader in data collection and AI, enabling fleet operators to capture data, track assets, and analyze their performance to avoid unscheduled downtime, minimize fuel consumption, enhance safety, and reduce carbon footprint. Our proprietary technology is built on cutting-edge telematics, communications, and Predictive AI. We are a technology partner to some of the largest mining companies in the world, offering end-to-end infrastructure featuring hardware, connectivity, and AI.

The Bucket Shop (TBS) is a heavy equipment repair, rebuild, and manufacturing facility that produces our own TBS HiPER brand line of cast lip and heel assemblies for mining equipment, as well as a unique 2, 4, and 6-piece bucket design. TBS adds value to any enterprise in the business of earth moving, including mucking, excavation, reclamation, mining, or trenching. We provide wear solutions for all mining bucket applications that extend lifecycles of 3 to 4 times!

THE PROSPEC GROUP

13

www.prospecfab.com

Prospec Steel Fabrication Limited has a vast network and fabrication capabilities including custom plate work, structural steel, steel fabrication, and miscellaneous fabrication services. We have the experience and skills necessary to support cradle-to-grave projects including detailing and on-site erection services. Our team can meet your needs both from our office and in the field. Trained personnel are available to oversee projects remotely or on-site and perform inspections and commissioning at customer request.

TIME LIMITED

28

www.timeltd.ca

For over 50 years, TIME (Temiskaming Industrial Mining Equipment) has provided mining, exploration, and other heavy industries with a single-source solution. We are known for manufacturing quality products, our efficient supply network, and having experienced, knowledgeable staff that provides exceptional customer care. Though our multi-faceted operation is diverse in nature, it is our ability to build lasting relationships with our customers and suppliers that is unique and memorable and proves we will always make TIME for them.

TOPSTEEL

15

www.topsteel.ca

TopSteel/TopRops is a steel and aluminum fabrication facility specializing in ROPS/FOPS safety systems. We can rebuild and recertify any make or model of canopy and cabs. We also have a full line of safety equipment which includes, wheel chocks, jack stands, dump bins, steps, and staircases. TopSteel/TopRops manufactures OEM personal carriers, flat decks, crane trucks, mechanic trucks, and fuel lube trucks for all trucks and chassis' that a commonly used in the mining that are ROPS/FOPS certified.

TURN-KEY COMMUNICATIONS

10

www.turnkeycommunications.ca

Turn-Key Communications has been a trusted name in network technology and installation for over 30 years. We specialize in structured cabling, outside plant construction, fiber networks, Wi-Fi, 5G, LTE, and leaky feeder systems. Serving a diverse range of industries, including mining, healthcare, education, and more, we are committed to driving innovation and connectivity. Our expertise and dedication to quality ensure we deliver tailored solutions that meet the unique needs of our clients.

VILLENEUVE ENGINEERING SERVICES

24

www.villeeng.ca

We are a structural engineering company starting to provide multi-discipline engineering in the metals and mining, pulp and paper, and power generation industries. We provide engineering locally here in Timmins and anywhere nationwide. We have a variety of services including engineering services, non-destructive testing services, concrete testing services, and 3D scanning services. We specialize in brownfield engineering and are also capable of creating greenfield designs. We thrive on providing great customer service and close client interaction throughout the duration of our project.

WABI IRON & STEEL CORP

05

www.wabicorp.com

We provide integrated manufacturing including fabrication, machining, engineering, and a foundry producing iron & steel castings. We specialize in custom design and manufacture of a wide range of mine skips, cages, loading stations, chutes, mine cars, and sheaves. We offer quality castings in over 100 different alloys which include Ni-hard, chrome iron, gray/ductile iron, steel, alloy steel, and stainless steel. We provide wear-resistant and impact-resistant parts and components for smelters, mills, steel plants, chutes, pumps, crushers, and the forestry industry. Our APEO-certified Engineering Department is capable of designing all types of cast and fabricated products. A proud century of engineering innovation.

WIPWARE INC.

04

www.wipware.com

WipWare designs and manufactures industry-leading photo analysis software and hardware. WipWare offers real-time analysis of materials in the field, laboratory, and online production settings for underground and surface mining, quarries, aggregate production, forestry, coal industries, and many more. WipWare offers photo analysis systems for conveyors, haulage trucks, and site-specific locations.

Ontario's leading-edge mine supply and service sector employs more than 40,000 people and Ontario produces more than \$10 billion worth of mining supplies and services every year.
