

NORTHERN ONTARIO MINING SHOWCASE

EXHIBITOR DIRECTORY 2025

Proudly supported by:

Federal Economic Development
Agency for Northern Ontario

Agence fédérale de développement
économique pour le Nord de l'Ontario

Canada

**The Honourable Patty Hajdu, Minister of
Indigenous Services and Minister responsible
for FedNor**

On behalf of the Government of Canada and the team from the Federal Economic Development Agency for Northern Ontario, I am pleased to extend a warm welcome to everyone attending the Prospectors and Developers Association of Canada (PDAC) 2025 convention, and particularly, the Northern Ontario Mining Showcase (NOMS).

As the largest pavilion at the convention, NOMS will continue to shine the global spotlight on the unique products, services and investment opportunities our diverse region has to offer. This year, the pavilion will once again feature an impressive roster of 112 exhibitors who are looking forward to more activity and more opportunities for Northern Ontario's mining supply and service sector.

Since its inception in 2015, the FedNor-funded pavilion has nearly tripled in size and helped participants create over 900 jobs and generate more than \$100 million in increased sales and exports. NOMS is a unifying space for potential, driving economic growth in the region and making a meaningful impact on the lives of thousands of middle-class families and workers.

Please join me in extending a special congratulations to the City of Temiskaming Shores for its hard work and leadership on this important initiative.

Best wishes to all participants for a productive and enjoyable convention.

Sincerely,
The Honourable Patty Hajdu,
Minister of Indigenous Services and
Minister responsible for FedNor

**For more information about
FedNor or its programs and
services, please scan here:**

MESSAGE FROM YOUR HOST

To all companies, business owners, executives, dignitaries, and other special guests from around the world, we welcome you to the 2025 Northern Ontario Mining Showcase!

This event is led by the City of Temiskaming Shores and generously supported by FedNor to recognize the unique potential that PDAC affords for the promotion of Northern Ontario and its businesses to the world.

The Northern Ontario Mining Showcase provides a unique opportunity to showcase the knowledge, capacity, and innovative approaches that mining supply and service companies from our region can offer.

Be sure to take the opportunity to chat, cultivate relationships, and generate business opportunities and leads with the 112 participating exhibitors. We also encourage you to learn more about our region and how its central location provides access to mining supply and service companies, directly supporting mines across Northeastern Ontario and Northwestern Quebec.

Join us and learn first-hand why Northern Ontario is deemed to be a centre of mining excellence!

The 2025 Northern Ontario Mining Showcase

Mayor Jeff Laferriere
City of Temiskaming Shores

ACCESS MINING SERVICES

08

aces-s.ca

Active in the mining industry since 2002, Access Mining Services offers rentals & sales service of mining utility vehicles as well as fleet management programs of transportation vehicles which can also include maintenance. Access Mining Services is also a supplier of highly qualified personnel for the mining operations.

ANDEAN DRILLING SERVICES

103

andeandrilling.ca

Andean Drilling Services is an independent underground mining contracting company who specializes in long hole drilling and blasting and the installation of deep ground support throughout Canada, Latin America and Africa. Our objective is to offer our clients the absolute best service possible which includes an impeccable safety program, the most advanced underground mining methods and an economic value that our clients see true value in.

AUTOMATION NOW

15

automationnow.ca

Automation Now Inc. is a leading provider of design, build, and support services for electrical power, instrumentation, automation, and control systems. Our specializations include VFD's, PLC's, electrical field services, custom CSA-certified panels and ehouse/containers. We service the mining sector with the commissioning of high-voltage equipment, instrumentation / calibration installations, and electrical and instrumentation commissioning support, during the start-up pass of a site. We are recognized as the only provider of full automation, instrumentation and electrical services company based in Northwestern Ontario.

Approximately 77% of Ontario's
mining company
GDP contributions stay inside
Ontario.

BAYSIDE GEOSCIENCE

38

baysidegeoscience.com

Bayside is a geological consulting firm that works with companies in the mining and mineral exploration sectors in a number of capacities. We provide contract personnel including geologists and geological technicians to supplement a company's workforce in times where extra labour is required. Bayside also provides full exploration project management including program design, planning, budgeting and execution. We are renowned for our field work which takes us across Canada in search of minerals of interest.

BBE GROUP CANADA

64

bbegroup.ca

BBE is recognized worldwide for its expertise in mine ventilation and air conditioning. We provide independent specialist and engineering services ranging from conceptual designs and modeling through to detailed engineering, project execution, and turnkey solutions throughout the Americas. BBE's engineering complements include mechanical, mining, chemical (process), electrical/instrumentation, and civil/structural. We are leaders in predicting underground heat loads and their management with surface and/or underground refrigeration plants. Our expertise also covers all aspects of primary and secondary ventilation systems and fan engineering. Throughout, our solutions incorporate all associated occupational health and safety concerns.

CAMBRIAN COLLEGE

37

cambriancollege.ca

Cambrian College's nationally accredited mining programs provide students with the skills and hands-on experience required to become part of underground or open pit mine teams throughout the globe. Cambrian R&D creates an environment of partnership, development, and learning that benefits everyone. The industry is connected with bright upcoming workers to solve problems with fewer wasted resources. We develop and offer programs to meet industry training needs while delivering courses ranging from battery electric vehicle maintenance, rigging, mine hoist, ozone depletion, and more. Each program is delivered in specialized labs, mobile spaces, and classrooms designed for face-to-face, virtual, and blended delivery.

CANADIAN DIAMOND DRILLING ASSOCIATION

68

cdda.ca

The CDDA has its finger on the pulse of the industry. We deal with government departments and agencies, both to keep you abreast of the latest regulatory changes affecting your industry, as well as to lobby governments for the well-being of the mineral industry in Canada. We keep various industry statistics and foster affiliations with associations that have complementary business interests. We organize conventions for the industry's benefit, providing opportunities for networking and social contact.

CANADIAN EXPLORATION SERVICES LIMITED

98

cxsLtd.com

Canadian Exploration Services Limited (CXS) is a leading provider of geophysics, exploration technical services, and earthworks relating to mineral exploration and development. Operating from its base in North Eastern Ontario we have been providing services to the mining industry since 2000.

LH NORTH LTD

91

lhnorth.com

Founded and headquartered in Thunder Bay, Ontario, LH North Ltd. is a leading, self-performing heavy-civil general contractor specializing in technical mining and infrastructure construction projects across Northwestern Ontario. Utilizing a dynamic team of multi-disciplined tradespeople combined with a well-maintained fleet of heavy equipment, the team provides a versatile service offering to numerous active mine sites across the north. Operations are complimented by in-house professional engineering services along with the region's most robust and diverse crane-rentals fleet through the firm's wholly-owned subsidiary, LH Crane & Rigging Ltd., providing equipment and expertise for the most complex industrial hoisting assignments.

LTL GROUP

76

ltlgroup.ca

LTL Group of Companies LTD. is a leading heavy civil contractor based in Thunder Bay. Our four core divisions, full-service contracting, construction, environmental, and directional drilling services, work side by side to provide tightly integrated, efficient, and productive project outcomes. With decades of experience, we've become a trusted partner for heavy civil solutions, navigating the challenging Northern Ontario terrain. We are proud to be an Indigenous-owned business.

MAESTRO DIGITAL MINE

91

maestrodigitalmine.com

Maestro Digital Mine manufactures instrumentation IIoT devices and last-mile digital networks for the underground mine, enhancing miners' lives through the pursuit of safety excellence and productivity. Our cleantech, Industry 4.0 products and solutions deliver worker safety and productivity improvements while reducing energy and GHG footprint, aiding in corporate decarbonization efforts. Maestro provides significant CAPEX and OPEX savings to mine project delivery, technology (IT/OT), ventilation, energy, and OHS professionals.

MATERIALS JOINING INNOVATION CENTRE

49

Majic-ca.org

The Materials Joining Innovation Centre (MajIC) is a not-for-profit organization with the mandate of improving the welding industry in Canada. MajIC offers many specialized services and testing capabilities that are not otherwise available to small/medium companies. We have a highly capable staff of Engineers and Technologists with expertise in various fields including welding, materials science, metallurgy, and manufacturing. MajIC maintains a well-equipped, state-of-the-art ISO9001-certified materials testing laboratory with extensive capabilities for standard and custom testing. With this expertise, we can fully support the growth plans of companies by executing R&D projects, or by simply providing independent validation of development work conducted internally.

MILLER TECHNOLOGY

13

millertechnology.com

Miller Technology is a leading equipment manufacturer for the mining industry. Miller Technology strives to supply leading-edge solutions for customers to improve productivity, while maintaining the highest safety standards. All products are designed and manufactured from our head office in North Bay, Ontario.

MINISTRY OF NORTHERN DEVELOPMENT

100

ontario.ca/page/ministry-northern-development

We support economic and community development in Northern Ontario with business support services, such as grants and loans as well as through investments, and partnerships. We connect Northern communities and businesses with economic development programs and services, help Northern businesses participate in export markets, and promote trade and investment in Northern Ontario.

TOPSTEEL

21

topsteel.ca

TopSteel/TopRops is a steel and aluminum fabrication facility specializing in ROPS/FOPS safety systems. We can rebuild and recertify any make or model of canopy and cabs. We also have a full line of safety equipment which includes, wheel chocks, jack stands, dump bins, steps, and staircases. TopSteel/TopRops manufactures OEM personal carriers, flat decks, crane trucks, mechanic trucks, and fuel lube trucks for all trucks and chassis' that a commonly used in the mining that are ROPS/FOPS certified.

TOPVU

104

topvu.ca

TopVu designs Tracking Systems (ORE, Personnel, LHDs) for mines. TopVu's OreTracking is an enterprise solution for mineral reconciliation and ore flow analytics. Live or Historic records can be used for grade control, process control, retention time, blending, or waste dilution detection. The core of TopVu's Personnel Tracking is Gen.2 software; a web-based REST API software platform integrating multiple devices to enhance H&S procedures and speed up mine rescue activities. When the digital eTagBoard is combined with TopVu's checkpoint tracking (RFID or BLE), we can deliver unprecedented safety benefits by eliminating tagboard incidents. Gen.2 also integrates RFID turnstiles to manage and document the workforce on your property, and Muster Tap Stations at assembly points and refuge stations.

There are currently 35 active mining operations in the province that cover a diverse set of metals and minerals, including precious and base metals, and non-metallic minerals. 10 of these mines produce critical minerals, including cobalt, copper, indium, nickel, platinum group elements, selenium, tellurium, and zinc.
