Agency for Northern Ontario

Agence fédérale de développement  
économique pour le Nord de l'Ontario

Canada

## MESSAGE FROM YOUR HOST

To all companies, business owners, executives, dignitaries, and other special guests from around the world, we welcome you to the 2026 Northern Ontario Mining Showcase!

This event is led by the City of Temiskaming Shores and generously supported by FedNor to recognize the unique potential that CIM CONNECT affords for the promotion of Northern Ontario and its businesses to the world.

The Northern Ontario Mining Showcase provides a unique opportunity to showcase the knowledge, capacity, and innovative approaches that mining supply and service companies from our region can offer.

Be sure to take the opportunity to chat, cultivate relationships, and generate business opportunities and leads with the 24 participating exhibitors. We also encourage you to learn more about our region and how its central location provides access to mining supply and service companies, directly supporting mines across Canada.

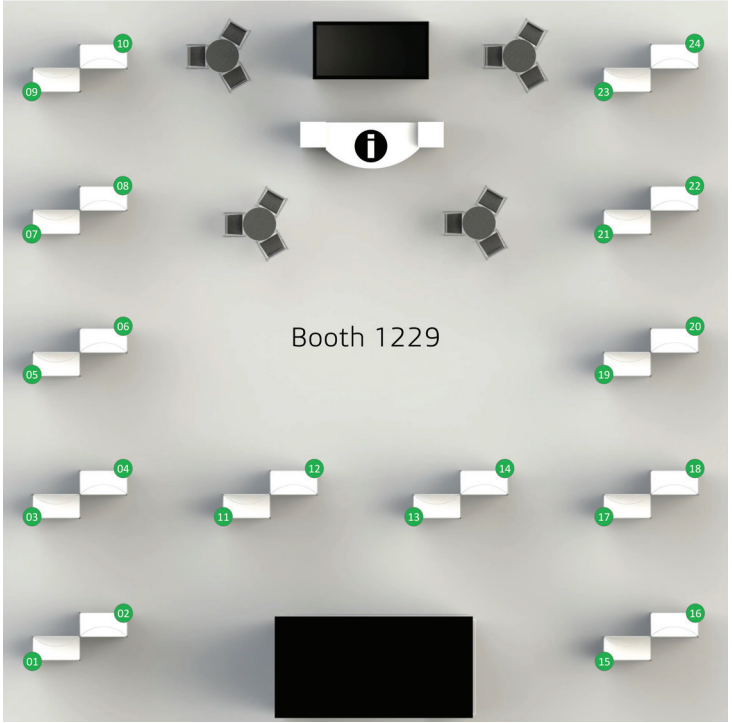

Join us and learn first-hand why Northern Ontario is deemed to be a centre of mining excellence!

Mayor Jeff Laferriere  
City of Temiskaming Shores

### ALEX MACINTYRE AND ASSOCIATES LTD.

18

**macintyremining.com**

Alex MacIntyre & Associates Ltd. has an excellent performance record with shaft sinking, track drifts, jumbo development, mechanized raising, mine construction, shotcreting and electrical-mechanical installations. In addition to an extensive fleet of underground mining equipment, MacIntyre also boasts a fleet of surface equipment including trucks, drills, loaders, excavators and dozers for surface excavation, tailings basin construction, ore and waste hauls and specialty drilling and blasting. We are a full-service mining contractor. From mine dewatering through production and development to mine closures, MacIntyre has the equipment and experience to get the job done.

### BLACK DIAMOND DRILLING TOOLS CANADA

11

**bddrill.ca**

World-class drilling tools and equipment with delivery throughout North America! Black Diamond Drilling Tools Canada Inc. known as "BDDRILL" is a privately owned Canadian Company which services the Mineral Exploration, Mining, Water well and Geo-technical sectors of the Drilling Industry. Black Diamond's vision is to help its customers create value using world-class drilling equipment and tools. BDDrill's rock drilling and pneumatic tools are driven by innovation and the latest technology.

### CAMBRIAN COLLEGE

20

**cambriancollege.ca**

Cambrian College's nationally accredited mining programs provide students with the skills and hands-on experience required to become part of underground or open pit mine teams throughout the globe. Cambrian R&D creates an environment of partnership, development, and learning that benefits everyone. We develop and offer programs to meet industry training needs while delivering courses ranging from battery electric vehicle maintenance, rigging, mine hoist, ozone depletion, and more. Each program is delivered in specialized labs, mobile spaces, and classrooms designed for face-to-face, virtual, and blended delivery.

### CORELIFT INC

02

**corelift.com**

CoreLift™ is a novel Canadian equipment provider based in Sudbury, Ontario. Our goal is to promote physical diversity, improve geoscience productivity and continue to innovate with products that dramatically remove risks of repetitive strain injuries and improve workflow for core logging personnel. We provide consulting expertise as well as robust, innovative equipment to go from core shack to modernized core processing facilities.

### CSL ENVIRONMENTAL & GEOTECHNICAL LTD.

05

**cslltd.ca**

CSL is an independently owned and operated engineering firm in Northern Ontario. We pride ourselves in being able to find creative solutions tailored to the north for our clients. We have developed a substantial mining team focused on developing and advancing projects.

### DJB MINING PRODUCTS & SERVICES LTD.

23

**djbmining.ca**

DJB Mining Products & Services Ltd., locally operated in Timmins, Ontario, has been serving Northeastern Ontario since opening its doors in 2010. Committed to providing high-quality, personalized services, we are available 24/7 to meet the unique needs of our customers. Our professional, courteous, and efficient team goes the extra mile to ensure our products meet the highest standards. Specializing in portable align boring, welding, and bucket fabrication, we supply products and services for both underground and surface projects across numerous mine sites.

### DORLAND GEOMATICS

15

**dorlandgeomatics.ca**

Dorland Geomatics provides surface and underground construction layout and mining claim surveys while helping to bring mining claims to lease. We review and establish historic mine geology and exploration grids to make them compatible with modern GNSS and GIS technologies. We provide precision monitoring surveys of large structures such as buildings, dams, tailing dams, furnaces, and other large civil or engineering structures. We provide precise layouts for machine alignment including industrial milling operations and machinery. We work with energy providers to map and provide layout of utility corridors in urban and remote areas of Canada.

### HEATH & SHERWOOD (1964) LIMITED

09

**heathandsherwood.com**

Heath & Sherwood of Kirkland Lake has been a supplier of quality products to the mining industry for 98-plus years. Heath & Sherwood supplies a complete line of standard and custom-designed samplers used for feeding process control analyzers, metallurgical accounting and inventory control requirements. A variety of samplers for pipes (gravity or pressurized flow), high-flow launders, conveyors, chutes and bulk containers are available. Also in the product line is the H&S Rod Charger and Smelter equipment, including the Gaspé Puncher, Gaspé Tuyère Automation Systems, Tuyère Silencers, Tuyère Pyrometers and Tuyère Line Refractory Drills. Heath & Sherwood is part of the Consep PTY Ltd Group based in Sydney Australia. Consep products include Sampling & Bulk Material Handling Systems, Acacia Intensive Leach Reactor and building construction platform Hoist.

### IONIC TECHNOLOGY GROUP

13

**ionictechgroup.com**

Ionic Technology Group is a Canadian technology and engineering group focused on solving complex industrial challenges through advanced automation, custom machinery, and integrated engineering solutions. Founded in Sudbury in 1999, the group is made up of a family of companies that share expertise in automation systems, robotic integration, controls engineering, and custom equipment design — all aimed at improving productivity, reducing operational bottlenecks, and modernizing industrial processes. Specializing in industries such as mining, metals, manufacturing, and heavy industry, Ionic Technology Group's teams design, build, install, and support tailored automation systems and special-purpose machines that help clients overcome labour shortages, improve safety, and boost efficiency. With multidisciplinary capabilities that span mechanical, electrical, and controls engineering, the group delivers end-to-end technology solutions that bring measurable operational value to customers around the world.

### KRUCKER HARDFACING

10

**kruckerhardfacing.com**

We specialize in the highest quality hardfacing materials and techniques to ensure our clients get the best results. Our experts provide a variety of services including Chromium Carbide Overlay lined pipe, including laterals, tees, straights, long radius elbows, and elbows. Our hardfacing services can extend the life of components, increase wear resistance and reduce downtime whether it's in the mines, concrete plants, paste fill systems, mills, smelters, or any other industry with high wear areas. We are dedicated to helping our clients get the best performance out of their products.

### MAESTRO DIGITAL MINE

21

**maestrodigitalmine.com**

Maestro Digital Mine manufactures instrumentation IIoT devices and last-mile digital networks for the underground mine, enhancing miners' lives through the pursuit of safety excellence and productivity. Our cleantech, Industry 4.0 products and solutions deliver worker safety and productivity improvements while reducing energy and GHG footprint, aiding in corporate decarbonization efforts. Maestro provides significant CAPEX and OPEX savings to mine project delivery, technology (IT/OT), ventilation, energy, and OHS professionals.

### MATERIALS JOINING INNOVATION CENTRE

22

**majic-ca.org**

The Materials Joining Innovation Centre (MajIC) is a not for profit innovation centre with the mandate of improving the welding industry in Canada. MajIC offers many specialized services and testing capabilities that are not otherwise available to small/medium companies. We have a highly capable staff of Engineers and Technologists with expertise in the fields of Welding, Materials Science, Metallurgy, Manufacturing to name a few. MajIC maintains a well-equipped, state of the art ISO9001 certified materials testing laboratory with extensive capabilities for standard and custom testing. With this expertise, we can fully support the growth plans of companies by executing R&D projects, or by simply providing independent validation of development work conducted internally.

### MIRARCO

08

**mirarco.org**

For over 20 years, MIRARCO has been a leader in the development and deployment of innovative solutions responding to the needs of the mining industry. MIRARCO has a strong reputation as a conduit for applied research; taking discoveries from the bench to the mine and into communities. MIRARCO will continue to build on our internationally recognized expertise across the mining life cycle and help support a resilient network and pipeline of highly qualified personnel.

### **NORTH BAY MACHINING CENTRE** — 19

**nbmc.ca**

Operating as a full-service machine shop, we source material with your specs, and provide designed machining solutions as well as any finishing your parts may require. Our capabilities encompass the design and manufacture of small to large pieces, small batch to high volume, and simple to complex components. North Bay Machining Centre is ISO9001-2015 certified, Controlled Goods certified, and now Cyber Secure 2021.

### **SAFESIGHT EXPLORATION INC.** — 06

**safesightxp.com**

SafeSight is an innovative digital smart mining company that develops, manufactures and markets LiDAR-based devices and software for rapid underground advanced data collection and safety systems. Validated by industry-leading producers, SafeSight systems instantly improve operational efficiency and safety by creating actionable, advanced data insights in minutes while eliminating the need to send people into high-risk situations to collect the data.

### **SOFVIE** — 17

**sofvie.com**

Sofvie is a comprehensive Health and Safety Software platform that allows your entire workforce to be fully engaged in working safely. Our core belief is that everyone deserves to go home safely from their work shift and central to that belief is that Sofvie gives you the ability to proactively get ahead of hazards and potential risks by transforming safety data into knowledge and wisdom.

#### **symboticware.com**

SYM.X.AI (formerly Symboticware) is transforming the mining industry with cutting-edge AI, Industrial IoT, and predictive analytics, delivering data-driven solutions that enhance productivity, efficiency, and sustainability. With deep expertise in Asset Performance Management, AI-driven Predictive Maintenance, and IoT connectivity, we empower the natural resources industry to reduce downtime, optimize fuel consumption, and improve operational reliability. Our solutions provide real-time insights and seamless data integration, leading to measurable improvements such as a 9% reduction in fuel consumption, 14% lower maintenance costs, and 50% less unscheduled downtime.

### THUNDER BAY HYDRAULICS INC.

01

#### **thunderbayhydraulics.com**

Since 1969, Thunder Bay Hydraulics Ltd. has been a premier Canadian manufacturer of hydraulic and pneumatic components and services to the industrial, forestry and mining industries in the Northwestern Ontario region. From custom design and engineering to manufacturing and installation, Thunder Bay Hydraulics can deliver end-to-end services on any project. We specialize in manufacturing industrial cylinders, hydraulic and pneumatic components, materials handling equipment and lift systems. We also carry an extensive inventory of commodities and raw materials.

### TIME LIMITED

12

**timeltd.ca**

For over 50 years, TIME (Temiskaming Industrial Mining Equipment) has provided mining, exploration, and other heavy industries with a single-source solution. We are known for manufacturing quality products, our efficient supply network, and having experienced, knowledgeable staff that provides exceptional customer care. Though our multi-faceted operation is diverse in nature, it is our ability to build lasting relationships with our customers and suppliers that is unique and memorable and proves we will always make TIME for them.

### TOPSTEEL/TOPROPS

04

**toprops.com**

TopSteel/TopRops is a steel and aluminum fabrication facility specializing in ROPS/FOPS safety systems. We can rebuild and recertify any make or model of canopy and cabs. We also have a full line of safety equipment which includes, wheel chocks, jack stands, dump bins, steps, and staircases. TopSteel/TopRops manufactures OEM personal carriers, flat decks, crane trucks, mechanic trucks, and fuel lube trucks for all trucks and chassis' that a commonly used in the mining that are ROPS/FOPS certified.

### TURN-KEY COMMUNICATIONS

14

**turnkeycommunications.ca**

Turn-Key Communications has been a trusted name in network technology and installation for over 30 years. We specialize in structured cabling, outside plant construction, fiber networks, Wi-Fi, 5G, LTE, and leaky feeder systems. Serving a diverse range of industries, including mining, healthcare, education, and more, we are committed to driving innovation and connectivity. Our expertise and dedication to quality ensure we deliver tailored solutions that meet the unique needs of our clients

## WABI IRON & STEEL CORP

07

**wabicorp.com**

We provide integrated manufacturing including fabrication, machining, engineering, and a foundry producing iron & and steel castings. We specialize in custom design and manufacture of a wide range of mine skips, cages, loading stations, chutes, mine cars, and sheaves. We offer quality castings in over 100 different alloys which include Ni-hard, chrome iron, gray/ductile iron, steel, alloy steel, and stainless steel. We provide wear-resistant and impact-resistant parts and components for smelters, mills, steel plants, chutes, pumps, crushers, and the forestry industry. Our APEO-certified Engineering Department is capable of designing all types of cast and fabricated products. A proud century of engineering innovation.

## WIPWARE INC.

16

**wipware.com**

WipWare designs and manufactures industry-leading photo analysis software and hardware. WipWare offers real-time analysis of materials in the field, laboratory, and online production settings for underground and surface mining, quarries, aggregate production, forestry, coal industries, and many more. WipWare offers photo analysis systems for conveyors, haulage trucks, and site-specific locations.

## X-GLO NORTH AMERICA INC

03

**x-glo.ca**

x-Glo North America Inc. is the North American distributor of industrial-grade LED lighting solutions and is committed to developing and supplying high-quality x-Glo LED lighting products and systems that are purpose-built for mining, tunneling, oil & gas, and other industrial applications. In 2021 we launched our New Visual Alert Control System (V.A.CS) that allows clients to control our lighting solutions in the event of an emergency.
